22 February 2022

14.00–15.00 CET

● Virtual event. [Register here.](#)

This webinar, the first in a series organized by the Global Research and Action Network for a New Eco-Social Contract, brings together experts and activists to discuss the thinking behind eco-social contracts past and present from different parts of the globe. The webinar will also throw light on how a 21st century eco-social contract can be fostered through a raft of changes to policies and institutions so that they are democratic, inclusive and promote gender and environmental justice, coupled with alternative economies and transformative social policies.
